3rd Annual Beach Clean-Up

The *Assets Advisory Committee* (AAC) and other high school volunteers once again came together to clean up the *Lincoln Township Beach Park*. On Sunday, May 4, over 45 student volunteers from the AAC, National Honor Society, Key Club, and Mr. Keller's Social Problems class pulled up their sleeves and pitched in to pick up trash, limbs, and more from the beach area. The pavilion area was cleaned up and raked. All of the trails were cleared of trash and brush, and repairs were made to the nature signs and the boardwalks. It took a lot of manpower to clear the sand, which had blown up from winter winds, from the boardwalk and the ramps. The kids had a great time and the weather was perfect. Everyone is excited about having our favorite beach clean and ready to enjoy this summer season.

The *Assets Advisory Committee* consists of a group of 24 high school students who work together to find ways to better their school and their community. The AAC is sponsored by the Lakeshore Excellence Foundation.

Shoe Recycling Drive a Success

The *Assets Advisory Committee* would like to take this opportunity to thank the Lakeshore students and the community for donating their old worn out athletic shoes to the Nike Reuse-A-Shoe collection drive. Every Lakeshore School had a large box in its lobby for two weeks in April. The high school students alone filled three boxes with shoes, and over 400 pairs were collected for this project. This is quite amazing, seeing that this is a first year attempt.

The AAC would also like to acknowledge and thank Allied Van Lines and Taylor'd Running for their generous support in this recycling project.

Thank you to all who contributed. Rest assured we are helping Nike with creating playgrounds and basketball courts for deserving children around the world. In addition, we are helping our planet and saving our landfills by reusing these old shoes. Dirty old shoes never looked so good!
